**HAVE YOU OR
HAS SOMEONE YOU
LOVE BEEN AFFECTED
BY PROSTATE CANCER**

The National Cancer Patient Experience Survey (NCPES) is completed by local people

In June 2017, the results of a survey completed by local people with cancer in Morecambe Bay were published.

We would like to tell you about the results relating specifically to **prostate cancer** and for you to tell us how we can improve the information that we give and when it is given.

You are invited ...

We would like you to tell us how we can improve things such as:

- The practical advice and support given
- The information which is posted to your address which includes about your new diagnosis and treatment options
- What type of information you need and how much is enough in order to avoid 'information overload'?
- The timing when it is given and who provides it, for example, your consultant and / or clinical nurse specialist
- Making the types of information easier to understand, for example, the type of cancer you have
- Helping you to make the most of the information available.

For more information or to book a place, please contact:

Louisa Balderson, Macmillan Involvement and Insight Coordinator, Living With and Beyond Cancer in Morecambe Bay
